DATE FOR FRANK'S NEW TRIAL HEARING TO BE POSTPONED

Convicted Man Will Not Hang
This Year, as Motion for
New Trial Will Be Put Off
From October 4 to December

JUDGE HILL AND NOT JUDGE ROAN WILL ACT

Crowded Conditions of Solicitor's Work and Rosser's Plea for More Time to Get Motion Ready, Cause Delay

That Leo M. Frank's motion for a new trial will not be heard until December, and that then the judge to grant or deny the famous prisoner another hearing will be Judge Benjamin H. Hill instead of Judge L. S. Roan, the trial judge, are two important facts in the case which became public Thursday.

Attorney Luther Z. Rosser, leading counsel for Frank, has been working untidily on the case, preparing his motion, but it is said that the document will not be ready until at least a month or more before the date set for the hearing of the motion, October 4.

After he has been duly served with the defense's motion, Solicitor Dorey will require at least a month to complete his answer. The crowded condition of the criminal docket makes it certain that the solicitor will be in court constantly during the month of October, and will have little opportunity of working on any except the cases which are brought before the court daily. The number of jail felony cases now pending in the criminal division is so large that it is essential that the solicitor devote his time to clearing the docket to precede in the criminal division. This will be October 1, when Judge Hill leaves his place as chief justice of the court of appeals and commences his work as a judge of the superior court of Fulton.

Judge Roan on October 1 becomes a judge of the court of appeals, and as such he will not hear, it is authoritative, the case of Leo M. Frank. The trial judge, Judge L. S. Roan, will hear the case on October 1, when Judge Hill leaves his place as chief justice of the court of appeals and commences his work as a judge of the superior court of Fulton.

(By Associated Press.)
WASHINGTON, Sept. 18.—The administration currency bill was passed by the house today by a vote of 222 to 84 practically unopposed in its essential provisions. Some house Democrats were inclined to look with disfavor on an amendment incorporated in the measure last night at the suggestion of the banking committee. The amendment, proposed by Representative Foss, Republican, of Ohio, included a statement that none of its provisions was calculated to repeal the law of 1900, prescribing the gold money standard, or to disturb the parity of money.

G. A. R. NOW READY TO CHOOSE NEW LEADER

Race Apparently Lies Between
Col. C. E. Adams and
Washington Gardner

(By Associated Press.)
CHATTANOOGA, Tenn., Sept. 18.—Election of officers by the Grand Army of the Republic for the thirty-seventh annual convention here and by the Sons of Veterans, probably will take place today. Caucuses were held late into the night by both organizations. While several candidates will appear on the first ballot in the G. A. R. election, indications are that the selection of a commander-in-chief to succeed General Alfred H. Beers will be between Colonel C. E. Adams, of Superior, Neb., and Washington Gardner, of Michigan. Supporters of each of these two candidates were freely predicting victory this morning.

An equally spirited contest is being waged by members of the Sons of Veterans. John E. Bauman, of Pittsburgh, Pa., and C. B. Scott, of San Francisco, will be the principal candidates for commander-in-chief, according to pledged votes announced in caucuses last night.

A steady downpour of rain, which continued throughout the night, was still in evidence today. For this reason the foot races between Union veterans from seven states and a Confederate veteran will be held in a big tent erected to the heart of the city.

The entries for the two races on the program—over a distance of 100 yards, and the other three miles, follow: Columbus H. Smith, Detroit, Mich.; C. W. Howe, Port Huron, Mich.; William A. Heinemann, Cleveland, Ohio; J. J. Buser, Indianapolis, Ind.; W. M. Clayton, Georgia; T. W. Brannan, Ohio; S. C. Thompson, of Pittsburgh, Pa.; J. H. Kentucky, and Meredith Wolfe, of Chattanooga, a Confederate veteran.

The youngest candidate in the entries is sixty-eight years old. Enforcement of an order excluding women and civilians from the forty-seventh annual Grand Army of the Republic parade today prevented the N. B. Forrest camp, composed of the Republic veterans from participating in the pageant. Clad in their official uniforms, the southerners were preparing to form in line of march with the parade on the Toledo, Ohio, when the order was executed.

An invitation to join in the parade had been tendered to the N. B. Forrest camp, commander of the Forrest camp, by Colonel Henry N. Hanson, commander of the Forsythie camp. Hanson, a Confederate veteran, passed along the line of soldiers in blue. He was followed by the Forsythie post they were greeted with cheers by the Union veterans.

Just when they were ready to take their places, Colonel Hanson, of the Forsythie camp, was informed by Colonel Dickinson that the commander of the department of the Forsythie, W. H. Warnock, had been instructed to have every one of the Forsythie veterans, Colonel Hanson expressed deep regret over the incident. The Confederate veterans also appeared distressed, but as they were ordered back to their headquarters they were given another ovation by the Union veterans.

AN ABNORMAL DEMAND

The Ladies Invade the Journal

The extraordinary large shipment of Imperial Embroidery patterns which arrived at The Journal office yesterday, so big when unloaded and piled in the store room that it seemed as if the time would be required to entirely deplete the lot. The reason for the opening day, when hundreds of ladies called and secured one of the patterns, was the opinion as to the lasting feature of the Imperial Embroidery patterns, a decidedly modified. Now at the middle of the month the pile of patterns has so diminished that it would be necessary before the enormous demand for them is satisfied. At the embroidery counter the young lady who handles them to the public seldom has an idle moment, and there have been occasions when she has been unable to supply them as fast as they are ordered. That there is no abatement in the desire for the Imperial Patterns is ample proof of its great value outside of the mere fact that it is a booklet of instructions, for all six coupons and 10 cents will secure it. If it is to be forwarded by post.

APPOINTMENT OF GAME

WARDEN STILL DOUBTFUL

Speculation Is Rife as to Whom Governor Will Name—Will Come Soon

Conjecture regarding the appointment of state game warden, now overdue by several days from the official decision, is no more than that, for the governor is not quick to decide by anyone as to what his decision will be. Jesse Mercer, the incumbent, the man who organized the department, and who through energetic work has made it one of the most efficient in the state, is a candidate for reappointment.

Mr. Mercer has been commended, too, by political partisans of all factions. It is said that some of the members numbered by Governor Slaton among his own best political friends, are charged with news of the Governor's decision. It is an innovation in church work.

SAY PRIEST AND DOCTOR WERE PALS FOR YEARS

Detectives Say Only Small Part of Schmidt's Life Has Been Revealed

(By Associated Press.)
NEW YORK, Sept. 18.—Documentary evidence showing that the Rev. Hans Schmidt, confessed murderer of Anna Ammiller, and Dr. Ernest Muret, priest's alleged confessor, partner, have been acquainted for a longer time than Muret admits, has been found, according to the police.

Dr. Muret has claimed he never knew Father Schmidt before the latter called on him last winter to have dental work done. Today the police have at headquarters a promissory note for \$250, dated April 15, 1911, and bearing what purports to be the signature of Dr. Muret, which was found in the priest's room in the rectory of the church of St. Joseph of the Holy Family yesterday.

The more detectives work in running down the clues of the mysterious motives of Schmidt the more they become convinced that only a minor part of these activities have been uncovered.

DECLARES FORECASTER

The predictions of the weather man are becoming monotonous. The weather is already a great deal more monotonous than the rain. "Showers tonight and Friday," says the forecaster, just as he has been no showers for a month and he holds out no definite hope for the future for several days.

The sun revolved against the gloom for a little while Thursday and peeped through the clouds just to let Atlanta know it was still shining. It was discouraging work, however, and it could muster up its courage only for a brief glimpse.

HIGH COST LIVING LAID TO CITIZENS

Oscar T. Camp Says Farmers and Townsmen Should Co-operate to Reduce It

Lack of co-operation between the farmers and city residents is the cause of the excessive cost of living in Atlanta, in the opinion of Oscar T. Camp, president of the Atlanta Retail Butchers and Grocers' association. Prices will continue to soar until Georgia farmers turn their attention from the production of cotton to the production of enough produce to supply at least a share of local needs, he believes.

Government statistics compiled recently show that Atlanta pays higher for food products than any other city in the United States save one.

But the dealers in the city, alone have the power to alter conditions. "The dealers in the city, alone have the power to alter conditions. They must work together on a solution of the problem," he said.

He should raise wheat, oats, corn, cattle, hogs, grain, truck—anything for which there is a local demand. And the city dwellers should buy the output of Georgia farms in preference to imported provisions.

But the consumer makes insistent demand upon the dealer for Georgia products and the tillers of the soil supply those products at the cost of living will drop down so rapidly that in a short while Atlanta will buy goods at retail as cheap or cheaper than residents of any other city.

Mr. Camp said that excessive freight rates were only a minor or a secondary cause of the high cost of living. The freight rates, of course, increase the price of foodstuffs, he declared, but only slightly as compared with other causes.

The former makes a profit in the neighborhood of 10 per cent of the cost of the goods. The latter method of distribution is the legitimate and necessary. But if Georgia farmers turned their attention to foodstuffs they could ship directly to the retailer, he said, and the jobber would go out of business to a great extent.

According to Mr. Camp the complexity of our modern civilization has greatly complicated the distribution of our goods. The dealer is far from the source of supply are forced to pay more for their goods. In some instances certain produce passes through five or six hands. Under the present method of distribution this is the case in Atlanta, he said.

Staples are grown many miles from here in other states. They are purchased by rice farmers by contractors who have to transport them to the railroads. When they arrive here the jobber takes them, sells them to the retailer, and finally they reach the consumer. The latter has paid each of the steps in the process. The cost has increased each time they were sold.

With Georgia farms producing enough for local needs this would be different. Mr. Camp would not believe that there would be in many instances sold by the farmer direct to the retailer. There would be only one or two profits for the ultimate consumer.

PRISONER WHO HUNTED PRISONERS IS PAROLED

Good Work of Romie Williams as Trusty Gets Him Parole and Nice Salary

Romie Williams, sentenced in 1910 to serve ten years for manslaughter, was paroled Thursday by Governor Slaton upon recommendation by the prison commission which dated back to two years ago. Governor Brown during his term in office declined to parole the man.

Because he has proved himself so useful as a trusty in the Rockdale county farm, and because he has been so successful in catching other convicts who escaped, the county commissioners of Rockdale will employ Williams and pay him a salary for continuing to do the work that he has been doing without pay as a convict. His parole makes him a protégé of W. J. Eakes, chairman of the board of trustees of the county.

A point of law is said to have been responsible for Williams' conviction. Williams was charged with the murder of a woman. Both sides conceded the facts that he related. He told that Williams and Thompson, the man whom he killed afterward, got into a quarrel over a woman. Williams was the victor in the fight.

Williams was in jail for a couple of years, and finally was convicted of manslaughter. He was sentenced to ten years. He was paroled Thursday by Governor Slaton upon recommendation by the prison commission which dated back to two years ago.

A Wail From French Jurymen
(London Chronicle.)
In Windsor, as well as in England, jurymen have their grievances. The latest can easily be imagined. The French minister of justice has ordered an address signed by citizens figuring on the Paris jury lists, protesting against the new operation of the courts where they have to sit. "There were not that 12-stories of looking at a judge, sitting on a throne and other parties to a suit-they turn their eyes upon the walls, nothing but on the walls, none the less. In order to relieve this deadly monotony, there long that a panel of French jurymen, "Justice in Forest" of Orleans, may be hung in each court."
